DEPARTMENT OF INDUSTRIAL ACCIDENTS.

---

## **NINTH ANNUAL REPORT**

OF THE

## **DEPARTMENT OF INDUSTRIAL ACCIDENTS.**

---

### **INTRODUCTION.**

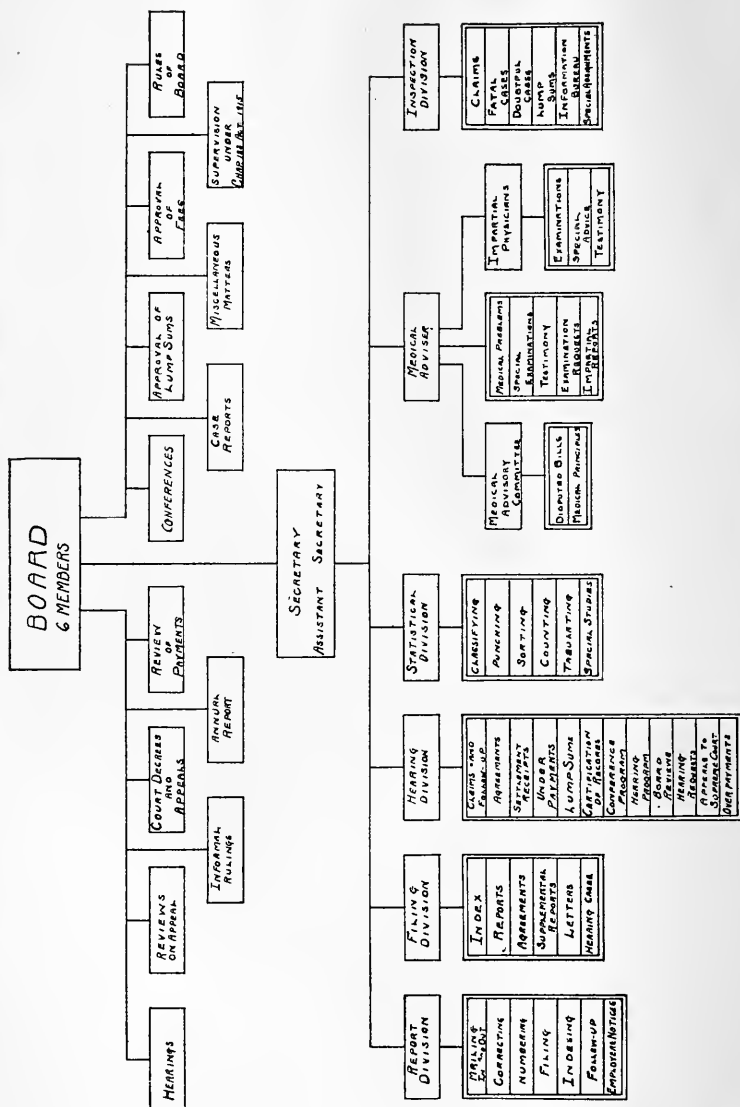

In this, the ninth annual report of the Department of Industrial Accidents, facts and figures in connection with the administration and development of the Workmen's Compensation Act are presented for the year July 1, 1920, to June 30, 1921. Only data which it is believed will be of especial interest is shown, in order that particular emphasis may be paid to certain topics of extraordinary importance.

Reference to the experience of previous years has been included when this will be of value in assisting in a more intelligent interpretation of the achievements and the developments of the act.

The report does not contain any new experience tables this year, but it does contain new material with particular reference to the administrative phase of the work. While it has been the practice in recent years to reduce the printing matter to the minimum, we believe that the information will be of sufficient value to warrant its inclusion.

A brief comparison of last year's statistics shows a decided decrease in the number of accidents reported to the Department, consequently a similar decrease in the number of tabulatable injuries; for example, there were 193,600 reports made to this Department for the period ending June 30, 1920, while for the same fiscal period ending June 30, 1921, 155,554 reports were received. This is probably explained by the decreased

ORGANIZATION CHART. DEPARTMENT OF INDUSTRIAL ACCIDENTS, COMMONWEALTH OF MASSACHUSETTS.

intensity of industrial activities and unemployment therein. The same ratio of decrease does not follow in cases of the tabulatable injuries. In the fiscal year 1920 the ratio of tabulatable injuries to the total number of reported injuries was 33.8 per cent, while for the fiscal year 1921 this percentage was 34.3. This increase (one-half of 1 per cent) is very small, and is equivalent to about 778 cases.

A synopsis of the subjects covered in the current report follows:—

*The Ninth Year of the Act.*—This chapter covers in condensed form the number of tabulatable injuries, total reported injuries, aggregate time lost, a condensed statement of combined payments by insurance companies operating under the act, extent of incapacity in certain cases, and dependency, in brief, in fatal cases.

*Summary of Accident Experience.*—This chapter explains the various tables found in the Appendix, with a brief analysis of each, and should be referred to for an understanding of the tables used. Graphs containing comparisons are used to present certain important phases of the experience.

### THE NINTH YEAR OF THE ACT.

There were 155,554 accident reports filed with the Department of Industrial Accidents during the year July 1, 1920, to June 30, 1921. Of these, 53,313 were tabulatable, which includes death, permanent total, permanent partial, and temporary total disabilities. Death resulted in 296 of these cases, 6 involved permanent total disability, 1,371 were of a permanent partial nature, and 51,640 were temporary totals.

The above figures would tend to indicate that the increase in the severity of the tabulatable injuries (mentioned in a previous paragraph) would not affect the more serious injuries, as there were 80 less fatal injuries, 4 less permanent totals, and a decrease of 240 permanent partials. The increase (one-half of 1 per cent) is entirely borne by the temporary total injuries, which includes injuries of a minor nature.

The reports from insurance companies show that the payments made and to be made on account of injuries in this period total \$5,666,859.93, and is classified as follows: medical, \$1,639,670.49; fatal, \$639,608.26; non-fatal, \$3,387,581.18.

The weighted time loss charged to all injuries is 4,103,378 days, distributed according to the nature of injuries, as follows: death, 43.3 per cent; temporary total disability, 31.3 per cent; permanent partial disability, 24.5 per cent; and permanent total disability, .9 per cent.

While it may be argued that the reduction in the number of fatal injuries for this period from that of the preceding year is due to the aforementioned unemployment conditions, we feel that, in view of the continued decrease in injuries which resulted in death, which has been evident for the past four or five years (with the exception of a slight increase during the year 1920), a considerable portion of credit is due to the introduction and maintenance of standard safety devices and better working conditions generally. Much of this success is due to the earnest efforts of the Safety Division of the Department of Labor and Industries, to which the work of accident prevention has been delegated by the Legislature.

There were 296 fatals during the preceding year, — a decrease of 80 in comparison with the year ending June 30, 1920. Total dependency was involved in 209 of these cases, 540 persons being so dependent. In 35 cases dependency was partial, the dependents numbering 52. In the remaining 52 cases there was no dependency. Eighty per cent, or 237 cases, were insured.

**SUMMARY OF ACCIDENT EXPERIENCE FOR THE YEAR,  
JULY 1, 1920, TO JUNE 30, 1921.**

The classification and groupings in the various tables conform in so far as is possible to the uniform classifications of statistics adopted by the International Association of Industrial Accident Boards and Commissions.

The experience given in the following pages appears in the order in which the tables are printed in the Appendix, with additional brief tables in some instances when this will assist in the better understanding of the general experience as shown.

**TABLE I, TOTAL TABULATABLE INJURIES, BY INDUSTRIES,  
AND CASES INSURED AND NOT INSURED.**

Ninety and six-tenths per cent, or 48,315 of the tabulatable injuries, were insured, and 4,998 were not. There is a decrease in the per cent of insured cases during the year of 1.9 per cent.

**TABLE II, INSURANCE TRANSACTIONS UNDER THE ACT.**

This table was compiled from figures furnished the Board by authorized insurance companies operating under the act, and also from the boards, commissions and departments of the Commonwealth of Massachusetts, and all counties, cities and towns which have accepted the provisions of chapter 807, Acts of 1913. This shows a total of \$5,666,859.93.

Under the provisions of chapter 807, Acts of 1913 (which are now sections 69 to 75, inclusive, of chapter 752 of the General Laws), the Commonwealth, and county, city, town or district having the power of taxation, and which has accepted the above-named act, could insure either with an authorized insurer, or provide for self-insurance.

The average cost of each tabulatable case in comparison with the amount of payments made was \$106.29, while for the year ending June 30, 1920, this average was \$95.60. Generally these figures would indicate that the incapacity for tabulatable

NUMBER OF TOTAL TABULATABLE INJURIES BY INDUSTRIESJuly 1, 1920 - June 30, 1921

Department of Industrial Accidents

injuries during the year ending June 30, 1921, was of greater duration than for the preceding year, or required more medical attention, thereby increasing the average cost.

However, in 1920 payments made by cities and towns were not included in the payments under Table II, and it is fair to assume that the greater portion of this difference would have been accounted for had these reports been secured; for example, in the past year there were paid by the Commonwealth, cities, towns and counties compensation and medical payments amounting to \$155,701.84.

*Insurance Payments.*

TYPE OF PAYMENTS.	Amount.	Per Cent.
Medical . . . . .	\$1,639,670 49	28.9
Fatal . . . . .	639,608 26	11.3
Non-fatal . . . . .	3,387,581 18	59.8
Total . . . . .	\$5,666,859 93	100.0

It may be noticed that, notwithstanding the reduction of 80 cases in the fatal injuries, the percentage of total payments for this type was exactly the same for the year ending June 30, 1921, as for that of the previous year, namely, 11.3 per cent.

Foremost among the more significant reasons for this occurrence is the fact that more of the fatal cases during the past year were insured than was the case in the preceding year. This increase, to be exact, was 6.4 per cent, or equivalent to 24 cases, based on the figures for the year ending June 30, 1920. In other words, had there existed the same percentage of fatal cases insured in the year ending June 30, 1920, as in the past year, instead of 276 representing insurance, 300 would have come within the requirements of the act; also, had the same ratio of dependency existed, 88 per cent, or 21 of the cases, would have involved either total or partial dependency, and would have consequently increased materially the payments made under the act in fatal cases. This would have undoubtedly resulted in a higher percentage of total payments attributable to fatal injuries.

NUMBER OF FATAL INJURIES BY INDUSTRIESJuly 1, 1920 - June 30, 1921

Department of Industrial Accidents

Based on the payments made and the number of cases to which they apply, the average cost per case for the several groups is as follows:—

*Average Cost per Specified Case.*

TYPE OF PAYMENT.	Average Cost.
Medical . . . . .	\$17 78
Fatal . . . . .	2,793 04
Non-fatal . . . . .	127 68

TABLE III, FREQUENCY OF INJURIES, BY INDUSTRIES AND EXTENT OF DISABILITY.

This table indicates the number of deaths, permanent total disabilities, permanent partial disabilities, and temporary total disabilities.

In permanent total disabilities the element of judgment based on experience must enter into classifying a part of the data.

Permanent partial disabilities are all injuries less than permanent total, which result in the loss of any member of the body, or part thereof, or in the permanent impairment of any function, as included in the specific injury table.

Temporary total disabilities are those in which the injured employee returned to work at his former wages, except a small number in which disability extended for over one year.

*Extent of Total Tabulatable Injuries.*

EXTENT OF INJURY.	Number of Cases.	Per Cent.
Deaths . . . . .	296	.5
Permanent total disabilities . . . . .	6	.1
Permanent partial disabilities . . . . .	1,371	2.6
Temporary total disabilities . . . . .	51,640	96.8
Total . . . . .	53,313	100.0

<sup>1</sup> Less than one-tenth of 1 per cent.

# DURATION OF DISABILITY IN CASES OF TEMPORARY TOTAL DISABILITY

Comparison of year ending  
June 30, 1920 with year ending June 30, 1921

Department of Industrial Accidents

The following table is a summary of the duration of disability in all cases of this classification:—

*Duration of Temporary Disabilities.*

DISABILITY PERIOD.	Number of Cases.	Per Cent of Total.
1 to 3 days . . . . .	6,599	12.8
4 to 7 days . . . . .	11,869	23.0
8 to 10 days . . . . .	5,118	9.9
11 to 14 days . . . . .	4,370	8.5
Over 2 to 4 weeks . . . . .	10,375	20.0
Over 4 to 8 weeks . . . . .	8,188	15.9
Over 8 to 13 weeks . . . . .	2,884	5.6
Over 13 to 26 weeks . . . . .	1,615	3.1
Over 26 to 52 weeks . . . . .	589	1.1
Over 1 year . . . . .	33	— <sup>1</sup>
Total . . . . .	51,640	100.0

<sup>1</sup> Less than one-tenth of 1 per cent.

By the above table it is noted that 45.7 per cent of the total temporary disabilities lasted less than eleven days, and fell within the ten-day waiting period. Compensation would not be payable on these injuries, but if the employers were insured the employees would be entitled to medical benefits.

*Tabulatable Injuries, by Industries and Extent of Disability, including Percentage Distribution.*

INDUSTRIES.	TOTALS.		DEATHS.		PERMA- NENT TOTAL DISA- BILI- TIES. <sup>1</sup>	PERMANENT PARTIAL DISABILI- TIES.		TEMPORARY TOTAL DISABILITIES.	
	Number of Cases.	Per Cent.	Number of Cases.	Per Cent.	Number of Cases.	Number of Cases.	Per Cent.	Number of Cases.	Per Cent.

Clay, glass and stone . .	376	.7	2	.6	-	6	.4	368	.7
Telephone and telegraph .	344	.6	4	1.4	-	-	-	340	.7
Professional . . . . .	336	.6	4	1.4	1	6	.4	325	.6
Agriculture . . . . .	266	.5	4	1.4	-	3	.2	259	.5
Clothing . . . . .	222	.4	1	.3	-	-	-	221	.4
Minerals . . . . .	199	.4	3	1.0	-	5	.4	191	.4
Liquors . . . . .	183	.3	-	-	-	7	.5	176	.3
Others in transportation .	48	.1	-	-	-	2	.1	46	.1
Miscellaneous industries .	4,914	9.2	35	11.8	-	154	11.2	4,725	9.1
Totals . . . . .	53,313	100.0	296	100.0	6	1,371	100.0	51,640	100.0

<sup>1</sup> Industries with permanent total disabilities had 16 $\frac{2}{3}$  per cent each.

*Deaths.* — Transportation, road, etc., had the highest number of deaths, 76, or 25.7 per cent; followed in order by building trades, with 47, or 15.9 per cent; miscellaneous industries, with 35, or 11.8 per cent; and the rest as shown.

*Permanent Total Disabilities.* — Iron and steel, textiles, trade, transportation, road, etc., service, professional, each had one case.

*Permanent Partial Disabilities.* — Iron and steel had the highest frequency, with 320 cases, or 23.4 per cent; textiles, with 194 cases, or 14.2 per cent; building trades, with 116 cases, or 8.5 per cent.

*Temporary Total Disabilities.* — The frequency order of this group of injuries occurred as printed, with the exception of express and chemicals, which are reversed.

TABLE IV, SEVERITY OF INJURIES, BY INDUSTRIES AND EXTENT OF DISABILITY.

This table aims to give a measure of the severity of injuries, according to actual and weighted time loss, the unit of time loss being the unit least given to fluctuating.

The weighting of the temporary total disabilities is most easily determined by using as the basis of measurement the actual number of days lost as a result of the injuries.

Under the plan adopted for the weighting of other types of injuries, the following principles were used: —

For each death and permanent total disability, a weight of six thousand days was employed as representing the average working life expectancy. This was determined on the accident experience in several States and some practical modifications based on committee judgment.

For each permanent partial disability an aliquot part of six thousand days, proportionate to the degree of disability resulting from the particular bodily impairment in each case.

*Severity of Tabulatable Injuries, by Industries and Extent of Disability.*

INDUSTRIES.	Total Days lost.	Deaths.	Per- manent Total Disabil- ities.	Per- manent Partial Disabil- ities.	Tem- porary Total Disabil- ities.
Transportation, road . . . . .	672,351	456,000	6,000	73,350	137,001
Iron and steel . . . . .	601,181	168,000	6,000	218,550	208,631
Building trades . . . . .	554,898	282,000	—	112,050	160,848
Textiles . . . . .	461,278	138,000	6,000	124,050	193,228
Trade . . . . .	374,326	156,000	6,000	68,400	143,926
Lumber . . . . .	157,350	48,000	—	64,050	45,300
Leather . . . . .	154,907	42,000	—	56,700	56,207
Food . . . . .	114,490	36,000	—	33,380	45,110
Service . . . . .	97,036	24,000	6,000	29,700	37,336
Paper . . . . .	95,631	24,000	—	35,700	35,931
Printing . . . . .	53,944	30,000	—	7,350	16,594
Professional . . . . .	48,335	24,000	6,000	9,000	9,335
Chemicals . . . . .	45,164	18,000	—	12,150	15,014
Water transportation . . . . .	44,440	24,000	—	5,250	15,190
Metals . . . . .	40,119	6,000	—	19,950	14,169
Agriculture . . . . .	33,759	24,000	—	900	8,859
Telephone and telegraph . . . . .	30,570	24,000	—	—	6,570
Minerals . . . . .	28,938	18,000	—	5,100	5,838
Clay, glass and stone . . . . .	25,846	12,000	—	4,800	9,046
Express . . . . .	13,741	6,000	—	300	7,441
Clothing . . . . .	10,424	6,000	—	—	4,424
Liquors . . . . .	8,793	—	—	5,100	3,693
Others in transportation . . . . .	4,160	—	—	2,400	1,760
Miscellaneous industries . . . . .	431,697	210,000	—	117,900	103,797
Totals . . . . .	4,103,378	1,776,000	36,000	1,006,130	1,285,248

*Distributed Severity of Injuries.*

NATURE OF INJURY.	Days lost.	Per Cent of Total.
Deaths . . . . .	1,776,000	43.3
Permanent total disabilities . . . . .	36,000	.9
Permanent partial disabilities . . . . .	1,006,130	24.5
Temporary total disabilities . . . . .	1,285,248	31.3
Totals . . . . .	4,103,378	100.0

The above table indicates that under the weighted system used, deaths cover 43.3 per cent of the total time loss, although only 296 out of a total of 53,313 cases were fatal.

*Percentage Distribution of Lost Days and Average Days per Case, by Industries.*

INDUSTRIES.	Per Cent of Total.	Average Days per Case.
Transportation, road . . . . .	16.4	120
Iron and steel . . . . .	14.7	63
Building trades . . . . .	13.5	105
Textiles . . . . .	11.2	60
Trade . . . . .	9.1	61
Lumber . . . . .	3.9	80
Leather . . . . .	3.8	64
Food . . . . .	2.8	61
Service . . . . .	2.4	69
Paper . . . . .	2.3	59
Printing . . . . .	1.3	77
Professional . . . . .	1.2	143
Chemicals . . . . .	1.1	70
Water transportation . . . . .	1.1	82
Metals . . . . .	1.0	55
Agriculture . . . . .	.8	126
Telephone and telegraph . . . . .	.7	88
Minerals . . . . .	.7	145
Clay, glass and stone . . . . .	.6	68
Express . . . . .	.3	21
Clothing . . . . .	.3	46
Liquors . . . . .	.2	48
Others in transportation . . . . .	.1	86
Miscellaneous industries . . . . .	10.5	87
Totals . . . . .	100.0	76

A comparison of the statistics of the preceding year in this instance indicates that although the mineral industry again contained the injuries which were of the most severe character, the average days lost per case have greatly diminished, namely, from 236 days per case in 1920 to 145 in 1921.

TABLE V, SEX AND AGE OF INJURED IN TOTAL TABULATABLE INJURIES.

*Sex of Injured.* — The following table indicates that from a total of 53,313 cases, 47,851 occurred among males, and 5,462 among females. The experience by sex and according to the extent of injury is shown.

*Extent of Injury, by Sex.*

EXTENT OF INJURY.	MALES.		FEMALES.	
	Number of Cases.	Per Cent.	Number of Cases.	Per Cent.
Deaths . . . . .	288	.6	8	— <sup>1</sup>
Permanent totals . . . . .	6	— <sup>1</sup>	—	—
Permanent partials . . . . .	1,261	2.6	110	2.0
Temporary totals . . . . .	46,296	96.7	5,344	97.9
Totals . . . . .	47,851	100.0	5,462	100.0

<sup>1</sup> Less than one-tenth of 1 per cent.

An analysis of the above table shows that males sustained 98 per cent of the fatal injuries, and that .6 per cent of the total injuries to them were fatal. The fatal injuries to females were less than one-tenth of 1 per cent of the total injuries sustained by them.

Less than one-tenth of 1 per cent of the total injuries were permanent totals, all to males. Permanent partials and temporary totals percentage were of almost equal proportion.

*Age.* — The age experience for all years reported is considered by compressing the number by year intervals into groups sufficient for general explanation.

*Distribution of Total Tabulatable Injuries, by Age Periods.*

AGE PERIODS (YEARS).	Number of Cases.	Per Cent of Total.
Under 14 . . . . .	11	— <sup>1</sup>
14-15, inclusive . . . . .	818	1.5
16-17 . . . . .	2,128	4.0
18-19 . . . . .	2,864	5.4
20-24 . . . . .	8,635	16.2
25-29 . . . . .	8,160	15.3
30-34 . . . . .	6,676	12.5
35-39 . . . . .	6,411	12.0
40-44 . . . . .	5,042	9.4
45-49 . . . . .	4,459	8.4
50-54 . . . . .	3,393	6.4
55-59 . . . . .	2,130	4.0
60-64 . . . . .	1,420	2.7
65 and over . . . . .	1,166	2.2
Totals . . . . .	53,313	100.0

<sup>1</sup> Less than one-tenth of 1 per cent.

No comment on the above table seems necessary except to state that the ages from fourteen to twenty are given for the benefit of those interested in minors.

TABLE VI, TOTAL TABULATABLE INJURIES, BY INDUSTRIES AND WAGE GROUPS.

No attempt is made in the following table to give the distribution by industries, as Table VI in the Appendix contains this information:—

NUMBER OF TOTAL TABULATABLE INJURIES BY GROUPS

Comparison of year ending  
June 30, 1920 with year ending June 30, 1921  
-----

Department of Industrial Accidents

*Distribution of Tabulatable Injuries, by Wages.*

WAGE GROUPS.	Number of Cases.	Per Cent of Total.	Cumulative Per Cent.
\$6 and under . . . . .	72	.1	.1
\$6.01 to \$7 . . . . .	57	.1	.2
\$7.01 to \$8 . . . . .	67	.1	.3
\$8.01 to \$9 . . . . .	128	.2	.5
\$9.01 to \$10 . . . . .	192	.4	.9

\$11.01 to \$12 . . . . .	303	.6	2.3
\$12.01 to \$13 . . . . .	900	1.7	4.0
\$13.01 to \$14 . . . . .	563	1.1	5.1
\$14.01 to \$15 . . . . .	719	1.3	6.4
\$15.01 to \$16 . . . . .	1,317	2.5	8.9
\$16.01 to \$17 . . . . .	906	1.7	10.6
\$17.01 to \$18 . . . . .	835	1.6	12.2
\$18.01 to \$19 . . . . .	1,776	3.3	15.5
\$19.01 to \$20 . . . . .	1,155	2.2	17.7
\$20.01 to \$21 . . . . .	2,199	4.1	21.8
\$21.01 to \$22 . . . . .	1,744	3.3	25.1
\$22.01 to \$23 . . . . .	2,050	3.8	28.9
\$23.01 to \$24 . . . . .	1,619	3.0	31.9
\$24.01 to \$25 . . . . .	4,093	7.7	39.6
\$25.01 to \$26 . . . . .	3,974	7.5	47.1
\$26.01 to \$27 . . . . .	1,938	3.5	50.6
\$27.01 to \$28 . . . . .	2,481	4.7	55.3
\$28.01 to \$29 . . . . .	2,563	4.8	60.1
\$29.01 to \$30 . . . . .	1,118	2.1	62.2
Over \$30 . . . . .	20,137	37.8	100.0
Total . . . . .	53,313	100.0	100.0

Attention should be called to the number of cases in which the employees received more than \$30 per week, which, in the above case, amounted to 37.8 per cent of the total number of tabulatable injuries. A striking example of the rise of wages is depicted in the results of this table for the years ending June 30, 1918, 1919, 1920 and 1921. In 1918 there were 2.9 per cent, or 2,264 cases, in which the employees received over \$30. In 1919 there were 7.1 per cent, or 4,799. In 1920 there

were 21.3 per cent, or 13,993. In the past year there were 37.8 per cent, or 20,137 cases. Briefly, the percentage of increase in tabulatable injuries in which the average weekly wage was more than \$30 for the period June 30, 1918, to June 30, 1921, was 1,300 per cent.

Likewise, but not in as drastic a measure, has the number of cases involving an average weekly wage of an amount under \$8 per week decreased in the corresponding period. Should the same conditions continue in future years, the above table would necessarily have to be analyzed in so far as wages over \$30 are concerned.

In last year's report we emphasized the fact that there has been an increase of 24.4 per cent in the number of employees receiving more than \$24 per week; \$24 was taken as a basis because this is the minimum amount upon which the maximum weekly compensation would be due. Again, in the past year we have experienced the same type of increase, the exact figure being 20.1 per cent. The number of cases in this class has increased greatly, and it tends to bear out our assertion of last year, that the increase in the number of injuries to the higher paid workmen was not due to lax precaution on the part of intelligent workmen, but was due to the increase in wages, which brings the type of workman susceptible to injury into the higher wage group.

TABLE VII, LOCATION OF INJURY, BY NATURE OF INJURY.

*Distribution of Tabulatable Injuries, by Location of Injury.*

LOCATION.	Number of Cases.	Per Cent.
Head . . . . .	4,110	7.7
Face and neck . . . . .	1,504	2.8
Trunk . . . . .	7,816	14.7
Upper extremities . . . . .	24,332	45.6
Lower extremities . . . . .	14,267	26.8
Body . . . . .	1,284	2.4
Total . . . . .	53,313	100.0

It will be observed that of a total of 53,313 injuries, 24,332, or 45.6 per cent, of them affected the upper extremities.

From the medical aspect in particular, and for information in general, the following table, which shows the number of tabulatable cases by the nature of the injuries, will prove of interest:—

*Distribution of Tabulatable Injuries, by Nature of Injury.*

NATURE.	Number of Cases.	Per Cent.
Abrasions, contusions, bruises . . . . .	13,753	25.8
Burns . . . . .	2,480	4.6
Concussions . . . . .	33	.1
Cuts, punctures, lacerations . . . . .	16,950	31.8
Dislocations . . . . .	296	.5
Fractures . . . . .	3,886	7.3
Sprains and strains . . . . .	9,672	18.1
All other . . . . .	4,349	8.2
Amputations, loss of use . . . . .	1,277	2.4
Shocks, electrical . . . . .	53	.1
Occupational . . . . .	564	1.1
Total . . . . .	53,313	100.0

## DISTRIBUTION OF INJURIES

Comparison of year ending  
July 1, 1920 with year ending June 30, 1921

Department of Industrial Accidents

TABLE VIII, LOCATION, BY NATURE OF INJURY AND EXTENT OF DISABILITY.

This table shows the tabulatable injuries, by nature of injury and by classification of injury. The location of injury is not given in this analysis.

NATURE.	Totals.	Deaths.	Per- manent Total Disabil- ities.	Per- manent Partial Disabil- ities.	Tem- porary Total Disabil- ities.
Abrasions, contusions and bruises . . . . .	13,753	11	-	4	13,738
Burns . . . . .	2,480	15	-	-	2,465
Concussions . . . . .	33	1	-	2	30
Cuts, punctures, lacerations . . . . .	16,950	14	-	10	16,926
Dislocations . . . . .	296	-	-	5	291
Fractures . . . . .	3,886	79	2	68	3,737
Sprains and strains . . . . .	9,672	14	-	2	9,656
All other . . . . .	4,349	136	1	9	4,203
Amputations, loss of use . . . . .	1,277	4	2	1,271	-
Shocks, electrical . . . . .	53	19	-	-	34
Occupational . . . . .	564	3	1	-	560
Total . . . . .	53,313	296	6	1,371	51,640

TABLE IX, INFECTION, BY NATURE AND EXTENT OF DISABILITY.

A comparison of the statistics of infections for the past two years, although showing an actual reduction of 192 cases from the 1919 figures, and of 617 cases from last year, reveals an increase in the ratio to the total tabulatable injuries of seven-tenths of 1 per cent. Experience of the Board shows that in 1921, 1 out of every 11 tabulatable injuries resulted in an infection, as compared with 1 out of every 14 for the year 1919 and 1 out of every 12 in 1920. The reason for this rather strange ratio can be more or less charged to the individual.

Investigation made by the Department of Labor and Industries has indicated that in the greater majority of cases facilities for first-aid treatment were available, but that the employees had neglected to make use of them.

NATURE OF INJURY.	Totals.	Deaths.	Per- manent Partial Disabil- ities.	Tem- porary Total Disabil- ities.
Abrasions, contusions, bruises . . . . .	848	4	1	843
Burns . . . . .	132	1	—	131
Cuts, punctures, lacerations . . . . .	3,413	8	3	3,402
Fractures . . . . .	4	—	—	4
Sprains and strains . . . . .	6	—	—	6
All other . . . . .	566	3	1	562
Amputations, loss of use . . . . .	15	—	15	—
Occupational . . . . .	2	—	—	2
Total . . . . .	4,986	16	20	4,950

According to the above table, 4,986 cases of infection ensued from injuries. This is 9.3 per cent of the total tabulatable injuries.

TABLE X., CAUSES OF INJURIES, BY EXTENT OF DISABILITY.

This table presents the accident experience, with such detail as resources permit, showing by detailed causes the relative extent of different types of injuries due to assigned causes. The table also shows the weighted severity of injuries, based on time loss.

For each cause enumerated the following information is given: —

Number of tabulatable injuries:	Days lost, due to —
Total cases.	Total cases.
Deaths.	Deaths.
Permanent total disabilities.	Permanent total disabilities.
Permanent partial disabilities.	Permanent partial disabilities.
Temporary total disabilities.	Temporary total disabilities.
Over 14 days.	Over 14 days.
11 to 14 days.	11 to 14 days.
8 to 10 days.	8 to 10 days.
7 days and under.	7 days and under.

Condensed information of the detailed table follows: —

CAUSE.	Totals.	Deaths.	Per- manent Total Disabil- ities.	Per- manent Partial Disabil- ities.	Tem- porary Total Disabil- ities.
Machinery . . . . .	10,057	51	-	877	9,129
Vehicles . . . . .	3,779	76	1	47	3,655
Explosions, electricity . . . . .	2,526	41	-	14	2,471
Falls of persons . . . . .	7,329	60	4	55	7,210
Stepping on or striking against . . . . .	4,167	4	-	19	4,144
Falling objects, not handled by employee	3,064	22	-	36	3,006
Handling of objects . . . . .	14,970	18	-	191	14,761
Hand tools . . . . .	4,038	1	-	95	3,942
Animals . . . . .	433	4	-	5	424
Poisonous substances . . . . .	583	3	1	-	579
Miscellaneous causes . . . . .	2,367	16	-	32	2,319
Total . . . . .	53,313	296	6	1,371	51,640

The above table, in condensed form, shows for each printed cause group both the total number of injuries and the distribution by extent of the resulting disability.

The following table shows by percentage distribution the information conveyed above, and may be better used for purposes of comparison:—

*Distribution of Causes, by Per Cents.*

CAUSES.	Totals.	Deaths.	Per- manent Total Disabil- ities.	Per- manent Partial Disabil- ities.	Tem- porary Total Disabil- ities.
Machinery . . . . .	18.9	17.2	-	64.0	17.7
Vehicles . . . . .	7.1	25.7	16.7	3.4	7.1
Explosions, electricity . . . . .	4.7	13.8	-	1.0	4.8
Falls of persons . . . . .	13.8	20.3	66.6	4.0	14.0
Stepping on or striking against objects . . . . .	7.8	1.4	-	1.4	8.0
Falling objects not being handled by em- ployee.	5.7	7.4	-	2.6	5.8
Handling of objects . . . . .	28.1	6.1	-	13.9	28.6
Hand tools . . . . .	7.6	.3	-	6.9	7.6
Animals . . . . .	.8	1.4	-	.4	.8
Poisonous substances . . . . .	1.1	1.0	16.7	-	1.1
Miscellaneous causes . . . . .	4.4	5.4	-	2.4	4.5
Total . . . . .	100.0	100.0	100.0	100.0	100.0

DURATION OF INJURIES  
NUMBER OF DAYS LOST

Department of Industrial Accidents

The cause group in which the highest number of accidents occurred was in the handling of objects, with 28.1 per cent, followed by machinery, with 18.9 per cent.

*Distribution of Causes, by Resultant Days lost.*

CAUSES.	Totals.	Per Cent of Total Days Lost.	Deaths.	Per- manent Total Disabil- ities.	Per- manent Partial Disabil- ities.	Tem- porary Total Disabil- ities.
Machinery . . . . .	1,066,395	26.0	306,000	—	528,230	232,165
Vehicles . . . . .	641,321	15.6	456,000	6,000	61,650	117,671
Explosions, electricity . . . .	320,717	7.8	246,000	—	22,200	52,517
Falls of persons . . . . .	705,227	17.2	360,600	24,000	87,600	233,627
Stepping on or striking against objects.	108,889	2.7	24,000	—	16,800	68,089
Falling objects not handled by employee.	253,249	6.2	132,000	—	41,100	80,149
Handling of objects . . . . .	552,301	13.5	108,000	—	94,950	349,351
Hand tools . . . . .	194,490	4.7	6,000	—	115,500	72,990
Animals . . . . .	41,261	1.0	24,000	—	3,900	13,361
Poisonous substances . . . . .	46,419	1.1	18,000	6,000	—	22,419
Miscellaneous causes . . . . .	173,109	4.2	96,000	—	34,200	42,909
Total . . . . .	4,103,378	100.0	1,776,000	36,000	1,006,130	1,285,248

As indicated above, the most serious cause of injury as measured in terms of time lost is machinery, with 26 per cent of the total. The estimated loss on this account, as shown by a previous table, was 1,066,395 days.

*Average Time lost per Case, by Principal Causes.*

CAUSES.	Average Days per Case.
Vehicles . . . . .	169
Explosions, electricity . . . . .	126
Machinery . . . . .	106
Falls of persons . . . . .	96
Animals . . . . .	95
Falling objects not handled by employee . . . . .	82
Poisonous substances . . . . .	79
Miscellaneous causes . . . . .	73
Hand tools . . . . .	48
Handling of objects . . . . .	36
Stepping on or striking against . . . . .	26

In considering these figures the fact should be remembered that the units cover all cases, including deaths, permanent total disabilities, permanent partial disabilities, and temporary total disabilities. If more detailed analysis is desired to meet particular questions, reference should be made to the figures in the Appendix under this table heading.

TABLE XI, MACHINERY — FREQUENCY OF INJURIES, BY MANNER OF OCCURRENCE AND BY PART OF MACHINE.

The number of machine accidents, according to the cause and the percentage of the total, is given in the following table: —

*Machine Accidents, by Manner of Occurrence.*

MANNER OF OCCURRENCE.	Number of Cases.	Per Cent of Total.
Starting, stopping or operating machine . . . . .	5,608	55.8
Flying objects . . . . .	1,252	12.4
Cleaning or oiling machine . . . . .	861	8.5
Adjusting machine or tool . . . . .	802	8.0
Breaking of machine, tool or work . . . . .	329	3.3
Repairing machine . . . . .	149	1.5
All other . . . . .	1,056	10.5
Total . . . . .	10,057	100.0

More than half of the machine injuries, or 55.8 per cent, occurred while starting, stopping or operating the machine. Of the 5,608 cases thus classified, 5,111 occurred at the point of operation.

Further analysis of this table is given in the following summary, showing the part of the machine on which the injury occurred: —

*Machine Accidents, by Part of the Machine.*

PART OF MACHINE.	Number of Cases.	Per Cent of Total.
Point of operation . . . . .	7,778	77.3
Belts . . . . .	412	4.1
Gears . . . . .	382	3.8
Flywheels . . . . .	43	.4
Set screws . . . . .	30	.3
Cranks . . . . .	16	.1
Counterweights . . . . .	2	— <sup>1</sup>
All other . . . . .	1,394	13.9
Total . . . . .	10,057	100.0

<sup>1</sup> Less than one-tenth of 1 per cent.

TABLE XII, CONDITION OF DEPENDENTS IN UNINSURED FATAL CASES.

This table shows in detail, when the information was obtainable, the industry, occupation, age, wage, amount payable under the act in analogous cases, dependents, settlement and financial condition of the family. Analysis of the facts given in the table is not made here, but will be found in a separate chapter devoted to the subject under this heading.

TABLE XIII, CONJUGAL CONDITION AND DEPENDENCY IN CASES OF FATAL INJURIES.

The conjugal condition of employees fatally injured, the extent of dependency according to the number of cases, and the number of persons dependent are considered in the following paragraphs:—

*Conjugal Condition in Fatal Cases.*

CONDITION.	Number of Cases.	Per Cent.
Single . . . . .	87	29.4
Married . . . . .	191	64.5
Widowed . . . . .	14	4.7
Divorced . . . . .	4	1.4
Total . . . . .	296	100.0

Of the 191 cases in which the employee was married, 187 involved total dependency, 3 partial dependency, and in 1 case there was both partial and total dependency.

In the 87 cases in which the employee was single, 16 involved total dependency, 29 partial dependency, in 3 cases there was both total and partial dependency, and in 39 cases no dependency.

TABLE XIV, SPECIFIC INJURY CASES, BY AGE OF PERSONS INJURED.

This table indicates that there were 1,277 cases of specific injuries. In 116, or 9 per cent, the employees were more than fifty-five years of age; 13, or 1 per cent, occurred among children under sixteen years of age. It is of importance to note at this point that there was a decrease of 27 in the number of specific injuries to children under sixteen years of age. This is equivalent to a percentage reduction of 67.5 per cent.

By frequency distribution, the order is as follows:—

*Specific Injuries.*

TYPE OF INJURY.	Number of Cases.	Per Cent of Total.
One finger or thumb . . . . .	945	74.0
Two or more fingers . . . . .	124	9.7
One eye . . . . .	107	8.4
One hand or arm . . . . .	37	2.9
One toe . . . . .	29	2.3
One foot or leg . . . . .	14	1.0
Two or more toes . . . . .	8	.6
Two fingers on both hands . . . . .	7	.5
One finger on each hand . . . . .	2	.2
Both eyes . . . . .	2	.2
One finger on one hand, two on other . . . . .	1	.1
One hand and two fingers . . . . .	1	.1
Total . . . . .	1,277	100.0

In the group "one finger or thumb" there were 945, or 74 per cent of the total. This group includes all finger injuries in which the loss, either by amputation or the equivalent loss of use, is less than at or above the second joints in two or more fingers.

Specific injuries to "one eye" numbered 107, an increase of 19 over the previous year. Specific injury to the eye entails either the loss of the eye or a reduction of vision to one-tenth of normal with glasses.

In the two cases of "both eyes" lost, one was due to a burn from acid, and the other to a fall from a roof.

*Distribution of Specific Injuries to Eye by Causes.*

CAUSE OF INJURY.	Number of Cases.	CAUSE OF INJURY.	Number of Cases.
Machinery . . . . .	23	Handling objects . . . . .	9
Explosions, hot objects . . . .	7	Flying particles . . . . .	15
Hand tools . . . . .	50	Falling objects not handled by employee.	2
Vehicles . . . . .	1		

TABLE XV, SPECIFIC INJURY CASES, BY CAUSE OF INJURY.

Two-thirds of the specific injuries reported to the Board are attributable to machinery. This is a reduction of 10 per cent from the experience of the preceding year.

The number of specific cases occurring on machinery was 856, or 8.5 per cent of the total due to machinery.

There were 945 cases in which "one finger or thumb" was lost.

Of these, 673 were due to machinery, of which 586, or 87.1 per cent, occurred at the point of operation.

*Percentage Distribution of Specific Injury Cases by Causes.*

CAUSES.	Number of Cases.	Per Cent of Total.
Machinery . . . . .	856	67.0
Vehicles . . . . .	32	2.5
Explosions, electricity . . . . .	13	1.0
Falls of persons . . . . .	24	1.9
Stepping on or striking against objects . . . . .	18	1.4
Falling objects not handled by employee . . . . .	23	1.8
Handling of objects . . . . .	184	14.5
Hand tools . . . . .	93	7.3
Animals . . . . .	3	.2
Miscellaneous causes . . . . .	31	2.4
Total . . . . .	1,277	100.0

## WORK OF THE BOARD.

### 1. OUTLINE OF FUNCTIONS AND ACTIVITIES.

The Industrial Accident Board was created by St. 1911, chapter 751, and amendments, now General Laws, chapter 152.

The Board consists of six members, and is charged with the duty of administering the Workmen's Compensation Act, under the provisions of which over \$6,000,000 annually are now being paid in compensation and medical benefits to the injured workmen of the Commonwealth, and, in case of death from injury, to the families of such workmen. Incidental to this duty is the supervision of 36 insurance companies, covering by insurance approximately 50,000 employers and 1,000,000 employees.

The duties of the members of the Board are divided into two main groups:—

(a) Collectively, as a Board, in reviewing cases heard by single members, and performing administrative work in connection with the discharge of the responsibility vested by law in the Board as the supreme authority in the central control and management of the Board's work.

(b) Individually, in the hearing and determination of claims arising from personal injuries received in the course of and arising out of employment under the act.

The procedure, both before single members and the reviewing board, is similar to that of the courts, and decisions are rendered speedily, usually within a few days after the evidence is heard.

(a) As a reviewing body, the full Board sits at least one full day each week, and sometimes two full days, for that purpose, on other days single members being assigned to the various cities and towns of the Commonwealth to hear and decide cases under the law which come before them for decision.

The chief function of the Board, as a reviewing body, is to pass upon claims for review, or appealed cases, in which the appealing party claims a review on the ground that the decision of the single member is against the evidence and the law.

Approximately 600 review cases are heard by the full Board in the course of a year. Other cases decided by the full Board are those involving the right of an employee to medical and hospital services after the first two weeks, the evidence being heard by the single member and reported to the full Board for decision under the law; cases involving fees of attorneys; cases relating to the right of a minor to an award by lump sum; special motions; cases recommitted to the Board by the courts, etc.

(b) The individual members are given a daily assignment of cases to hear upon the numerous disputed claims which arise in connection with the large number of injuries reported to the Board in the course of a year, including hearings upon the claims of injured employees; dependents of injured employees; reviews of weekly payments made under agreements approved by the Board; hearings *in re* medical and hospital bills; and fees of attorneys for services under the act.

Members are required to report all the material evidence in each case heard by them, together with their findings of fact and rulings of law.

Single members also preside at scheduled conferences which are held, as are hearings, in the various cities and towns of the State. Where a case reaches the dispute stage, and there appears to be a prospect of adjusting it, the case is set down for a conference with a member of the Board. Each of the parties to the controversy and their representatives, if any, are invited to be present. The member of the Board endeavors to bring about an adjustment on the basis of the statements made by the parties, applying the law to the facts as disclosed. Cases which go to conference include every type of case which arises under the law and all the problems which may be involved in such cases.

## 2. OUTLINE OF ORGANIZATION.

The chart which is printed in this report shows the organization of the Board, and it becomes necessary only to add a brief explanatory statement.

As indicated, the central control and management is in the hands of the Industrial Accident Board.

The divisions of the Board are under the immediate supervision of the secretary, aided by an assistant secretary. Each division is in charge of a chief, who is responsible to the executive officers of the Board.

The work of the Board is divided between the following divisions:—

- (a) Report Division.
- (b) Filing Division.
- (c) Hearing and Agreement Division.
- (d) Statistical Division.
- (e) Medical Division.
- (f) Inspection Division.

(a) *Report Division.*

The function of this division is to sort and distribute all incoming mail, including letters in regard to claims under the law, reports of injuries and supplemental reports of injuries from employers, and all mail received from insurance companies. This division corrects, numbers and indexes all reports preparatory to filing; sends for reports which have not been filed in accordance with the requirements of the law; sends for additional information when reports filed with the Board are not complete; notifies employees of their rights under the compensation law; and performs such miscellaneous service as is necessary in connection with the work which passes through this division. There are at present eight employees in this division.

(b) *Filing Division.*

The filing of the index cards, original reports of injuries, supplemental reports, agreements in regard to compensation, and letters, as well as the filing of all hearing cases, is in charge of this division. There is a central bureau in this division in which the large number of cases which are continually being called for in connection with the work of the Board are credited or charged, as the case may be. There are at present fifteen employees in this division.

(c) *Hearing and Agreement Division.*

In this division claims for compensation, agreements in regard to compensation, and settlement receipts showing the total amount paid in each compensation case are verified, to the end that the injured employee shall receive the full benefits to which he is entitled under the law. Upon the receipt of claims insurers are notified by letter and employees are instructed as to future procedure, if the claims are not honored by the insurers. Hearings are arranged for; parties duly notified; special assignments are made in the various cities and towns for hearings before single members and for review hearings before the full Board; a docket is kept of all cases; copies of decisions are sent to the parties; all the stenographic work necessary to the preparation of reports of the evidence taken at hearings is performed; certified copies are prepared for the courts; and all necessary work in connection with the disposition of claims under the act is performed. There are at present twenty-nine employees in this division, twelve of whom are permanently assigned to Board members for hearing duty.

(d) *Statistical Division.*

This division classifies, sorts, codes and tabulates all reports of injuries for statistical purposes. The results of this work are shown in the statistical summary which appears in each annual report issued by the Board. There are at present nine employees in this division.

(e) *Medical Division.*

This division assists the Board in its consideration of all medical problems under the law; in the selection of competent impartial physicians to make examinations of injured employees and to report the results of these examinations, and, with the assistance of the medical advisory committee, a volunteer committee of members of the medical profession representing the recognized medical societies and the profession generally, to advise the Board in regard to the larger problems of medical

and hospital matters; passes upon the reasonableness of fees of physicians and hospitals; and assists the Board generally upon matters relating to the medical and surgical treatment of injured employees under the law. There are at present four employees in this division.

(f) *Inspection Division.*

The inspectors of the Board are its investigators, and are called upon to report the facts regarding cases involving the rights of dependents when employees are fatally injured; in certain cases of doubtful liability where employees are not fatally injured; in discontinuance cases where a question is raised as to the employee's ability to return to work or to return to a specific job; all lump sum cases, where the parties have agreed upon a lump sum payment to redeem all liability under the act; cases involving the rights of minors and the wages which such injured minors would have received except for the injury; failure of employers to report injuries as required by law; and other like matters. In connection with the supervision of the inspection staff, the chief inspector has charge of the Board's public office or information bureau. There are eight employees in this division, including two employees who are not inspectors.

### THE MEDICAL DIVISION.

The work accomplished by the Medical Division of the Board, under the supervision of its medical adviser,<sup>1</sup> is briefly presented in this chapter. A more detailed statement of the work and functions of this department will be found in the sixth annual report.

Insurers under the Compensation Act paid out for medical and hospital services during the period ending June 30, 1921, the sum of \$1,639,670.49. This sum represents 28.9 per cent of the total payments of the year. During this period 92,182 injured employees were furnished either medical or hospital treatment at the expense of the insurance companies.

Many problems have grown out of this large number of cases which have required the advice and assistance of the Medical Division, including advice as to the reasonableness of the charges of physicians and hospitals in disputed cases, adequacy of the treatment provided, additional treatment beyond the first two weeks after the injury, whether the employees' incapacity for work as a result of the injury had terminated in whole or in part, and other medical questions.

Impartial physicians are appointed by the Board with the advice of the medical adviser. During the year covered by this report 2,455 impartial examinations have been made at a total expense of \$20,192.20. In addition to this sum \$2,340 was paid out on account of services of impartial physicians at hearings upon disputed cases, and for hospital records obtained by the Board.

The medical work of the Board has been administered from the viewpoint that employees are entitled to adequate medical and hospital treatment, but that the cost of such treatment should be reasonable.

### VOCATIONAL TRAINING DIVISION.

In accordance with the provisions of chapter 462, Acts of 1921, the Vocational Training Division of the Department of Industrial Accidents was transferred to the Department of Education, and henceforth is to be known as the Division of Vocational Education, Department of Education. This transfer took place Aug. 27, 1921, and at that time all the records pertaining to this work in the possession of the Board were removed to the Department of Education.

We are not giving any statistical data as to the experience of this Division in this report. This, for the reason that the eighth annual report of this Department included, in the chapter on "Vocational Training," the experience for the greater portion of the fiscal period which is covered by this report.

However, in order to facilitate the provisions of the above-named chapter, and to aid in the furtherance of its aims, a special plan of co-operation between the Department of Education and the Department of Industrial Accidents has been approved by the Governor. By the provisions of this plan, the Department of Industrial Accidents will furnish the Department of Education information regarding persons who have been reported to this Department as having suffered injuries entailing impairment.

This information will cover, not only the name and address of the injured employee, and the nature of his injury, but also all subsequent and important developments in the case, until its final disposition either by this Department or by the Department of Education.

### DEPENDENCY IN FATAL CASES NOT INSURED UNDER THE ACT.

From July 1, 1920, to June 30, 1921, there were 59 such cases, 19.9 per cent of the total of 296 fatal injuries. The dependents in these cases obtained their relief by settlement, voluntary agreement or through legal procedure.

The information contained below was obtained by questionnaires sent to the dependents or by personal interview.

Steam railroad . . . . .	43	Manufacturers of textile ma-	
Telephone and telegraph . . . .	4	chinery . . . . .	1
Painters . . . . .	2	Farmers . . . . .	1
Stevedore . . . . .	1	Express . . . . .	1
Photographers . . . . .	1	Foresters . . . . .	1
Cotton mill . . . . .	1	Transportation of coal . . . .	1
Gun powder manufacturers . . . .	1	Light and power company . . .	1

The average age of these employees at the time of death was forty-one, and the average weekly wage was \$33.49.

Under the provisions of the act, the dependents in these cases would have been paid a total of \$159,900. In 39 cases dependency was total, and in each of these cases \$4,000 would have been due in accordance with the terms of the act. In one case dependency was partial, and the dependents would have received approximately \$2,000. In the remaining 19 cases there was no dependency, but funeral expenses in each case to the amount of \$100 would have been paid. The actual amount paid was \$47,657.66, or 29 per cent of that called for by the Compensation Act.

An analysis of dependency in uninsured cases is of value in showing upon whom the burden fell.

DEPENDENTS.	Number of Cases.	DEPENDENTS.	Number of Cases.

## PRINTING AND BOOKBINDING MACHINES.

Composing machines:	16	1	1	1	8	3	705	—	—	—	344	39	8	14
Linotypes . . . . .	3	—	—	—	1	—	6,376	6,000	—	—	76	—	—	—
Type casters . . . . .	—	—	—	—	—	—	—	—	—	—	—	—	—	—
Presses:	9	—	—	—	3	—	—	—	—	—	—	—	—	—
Binding presses . . . . .	90	—	—	—	43	—	571	—	—	—	224	11	36	—
Printing presses . . . . .	8	—	—	—	2	—	4,528	—	—	—	2,150	89	111	78
Fiat bed cylinder presses . . . . .	28	—	—	—	2	—	379	—	—	—	300	41	19	8
Job platen presses . . . . .	—	—	—	—	15	—	2,203	—	—	—	1,200	931	20	40
Web newspaper presses . . . . .	2	—	—	—	1	—	14	—	—	—	—	12	10	4
Sewing machines . . . . .	1	—	—	—	1	—	41	—	—	—	—	—	—	—
Wire stitchers . . . . .	—	—	—	—	1	—	172	—	—	—	—	—	—	—
Other printing machines . . . . .	21	—	—	—	4	—	1,895	—	—	—	1,350	26	10	11
Other bookbinding machines . . . . .	25	—	—	—	9	—	1,570	—	—	—	309	—	8	40
														61
TEXTILE MACHINES.														
Miscellaneous machines . . . . .	270	—	—	—	137	25	23,421	—	—	—	16,350	322	132	334
Washers . . . . .	13	—	—	—	10	—	557	—	—	—	—	—	9	11
Driers . . . . .	10	—	—	—	4	—	1,193	—	—	—	—	23	—	7
Scouring machines . . . . .	4	—	—	—	3	—	913	—	—	—	750	—	—	—
Braiding and knitting machines . . . . .	21	—	—	—	6	1	1,026	—	—	—	600	14	44	29
Carding and combing machines:														
Combs . . . . .	253	1	—	—	129	24	32,127	6,000	—	—	18,750	298	135	239
Carders . . . . .	85	—	—	—	51	5	5,225	—	—	—	2,850	66	55	76
Garnett machines . . . . .	2	—	—	—	1	—	340	—	—	—	300	40	—	—
Stubbers . . . . .	19	—	—	—	14	1	836	—	—	—	300	14	—	16
Speeders . . . . .	97	—	—	—	57	8	6,957	—	—	—	4,200	99	73	69
Gill box tenders . . . . .	9	—	—	—	4	—	2,068	—	—	—	1,950	112	—	6
Cloth cutting and stamping machines . . . . .	15	—	—	—	8	1	830	—	—	—	600	185	14	12
Folding machines . . . . .	36	—	—	—	18	5	977	—	—	—	—	—	47	58
Dyeing, finishing and printing machines:														
Dyeing and finishing machines . . . . .	41	—	—	—	14	6	1,431	—	—	—	600	73	30	68
Shearing machines . . . . .	11	—	—	—	6	—	1,828	—	—	—	315	—	—	13
Lappers . . . . .	16	—	—	—	9	—	1,820	—	—	—	1,200	—	28	13
Hat-making machines . . . . .	1	—	—	—	—	—	9	—	—	—	—	—	9	—
Opening and cleaning machines:														
Openers . . . . .	1	—	—	—	1	—	25	—	—	—	—	—	—	—
Pickers . . . . .	83	—	—	—	45	7	11,425	—	—	—	9,150	91	79	61
Rag pickers . . . . .	2	—	—	—	1	1	27	—	—	—	—	12	—	—
Presses . . . . .	8	—	—	—	4	—	450	—	—	—	300	140	—	10
Rope-making machines . . . . .	—	—	—	—	3	1	930	—	—	—	600	309	11	10
Sewing machines . . . . .	20	—	—	—	9	2	425	—	—	—	—	25	—	48

TABLE X. — Causes of Injuries, by Extent of Disability, etc. — Continued.

CAUSES.	NUMBER OF TABULATABLE INJURIES.					DAYS LOST DUE TO —											
	Total.	Deaths.	Permanent Total Disabilities.	Permanent Partial Disabilities.	TEMPORARY DISABILITIES.				Total.	Deaths.	Permanent Total Disabilities.	Permanent Partial Disabilities.	TEMPORARY DISABILITIES.				
					Over 14 Days.	11 to 14 Days.	8 to 10 Days.	7 Days and under.					Over 14 Days.	11 to 14 Days.	8 to 10 Days.	7 Days and under.	
<b>Machinery — Con.</b>																	
<b>HOISTING APPARATUS — Con.</b>																	
<i>Elevators controlled, etc. — Con.</i>																	
Caught between car and overhead equipment or top of shaft . . . . .	9	1	1	1	3	3	1	2	885	6,000	—	—	750	93	35	—	7
Car, struck by, elsewhere . . . . .	14	1	—	—	6	1	1	5	6,336	—	—	—	—	297	14	9	16
Car, sudden stop or start . . . . .	1	—	—	—	1	—	—	—	32	—	—	—	—	32	—	—	—
Car, dumping . . . . .	3	—	—	—	3	—	—	—	121	—	—	—	—	121	—	—	—
Catching of load or part thereof between car and shaft . . . . .	1	—	—	—	—	—	1	—	8	—	—	—	—	—	—	8	—
Counterweight, struck by . . . . .	1	—	—	—	—	—	—	—	5	—	—	—	—	—	—	—	5
Fall of person into shaft, from floor . . . . .	50	4	—	1	34	2	4	5	28,669	24,000	—	—	2,400	2,184	24	33	28
Fall of person into shaft, from car . . . . .	3	—	—	—	1	1	1	1	83	—	—	—	—	69	12	—	2
Fall of person into car, from floor . . . . .	10	1	—	—	3	—	—	6	6,219	6,000	—	—	—	197	—	—	22
Gates, not specified . . . . .	72	—	—	—	30	2	4	35	2,025	—	—	—	300	1,532	24	38	131
Machinery, breaking . . . . .	7	—	—	—	6	—	—	1	768	—	—	—	—	763	—	—	5
Machinery, caught in . . . . .	10	—	—	—	4	—	2	2	1,760	—	—	—	1,500	235	6	19	6
Objects falling down shaft, from floor . . . . .	5	—	—	—	2	1	—	—	167	—	—	—	—	144	13	28	10
Objects falling down shaft, from car . . . . .	6	—	—	—	—	3	—	3	38	—	—	—	—	—	—	28	10
All other . . . . .	108	—	—	6	57	4	12	29	9,219	—	—	—	6,000	2,939	50	109	121
<i>Elevators, Automatic and Dumb Waiters.</i>																	
Cable, breaking . . . . .	1	—	—	—	1	—	—	—	24	—	—	—	—	24	—	—	—
Cable, caught by . . . . .	2	—	—	—	2	—	—	—	84	—	—	—	—	84	—	—	—
Car, caught between floor and . . . . .	9	—	—	1	3	—	3	2	2,559	—	—	—	2,400	119	—	28	12
Car, caught between shaft side and . . . . .	6	—	—	—	2	—	1	3	75	—	—	—	—	54	—	10	11

TABLE X. — *Causes of Injuries, by Extent of Disability, etc.* — Continued.

CAUSES.	NUMBER OF TABULATABLE INJURIES.					DAYS LOST DUE TO —						
	Total.	Deaths.	Permanent Total Disabilities.	Permanent Partial Disabilities.	TEMPORARY DISABILITIES.							
					Over 14 Days.	11 to 14 Days.	8 to 10 Days.	7 Days and under.				
<b>Vehicles (not including Construction of) — Con.</b>												
CARS AND ENGINES — STEAM AND ELECTRIC RAILWAYS — <i>Con.</i>												
Struck by or caught between — <i>Con.</i>	12	2	—	2	4	1	1	4	12,233	12,000	—	—
While standing or walking on track . . .	112	13	—	2	56	7	7	27	88,428	78,000	—	—
Miscellaneous . . .												
<i>Other Causes.</i>												
Setting or releasing hand brakes . . .	27	—	—	—	12	2	3	10	438	—	—	—
Objects falling from (not in loading or unloading) . . .	33	—	—	—	11	5	2	15	404	—	—	—
Objects shifting on load . . .	8	—	—	—	3	—	—	5	305	—	—	—

TABLE XII. — *Study showing Condition of Dependents in Uninsured Fatal Cases, July 1, 1920, to June 30, 1921.*

Industries.	Occupation.	Age.	Wages.	Amount payable in Analogous Cases.	Dependents.	Settlement.	Financial Condition.
Steam railroad . . .	Laborer . . .	70	\$24 00	\$100 00	None . . .	None . . .	Widower, no dependents.
Steam railroad . . .	Laborer . . .	56	23 28	4,000 00	Widow . . .	\$4,500 . . .	Widow in fair circumstances.
Steam railroad . . .	Bridgeman . . .	25	27 00	100 00	None . . .	-	Single man, no dependents.
Stevedore . . .	Freight handler . . .	55	30 00	100 00	None . . .	-	Single man, no dependents.
Painter . . .	Painter . . .	47	45 00	4,000 00	Widow and four children . . .	None . . .	Employee a subcontractor.
Steam railroad . . .	Laborer . . .	40	19 20	4,000 00	Widow and two children . . .	\$750 . . .	Family in poor circumstances. Aided by city of Boston charity.
Photographers . . .	Photographic assistant . . .	23	18 00	100 00	None . . .	-	Single woman, no dependents.
Telephone and telegraph . . .	Splicer . . .	29	45 00	4,000 00	Widow . . .	\$5,000 . . .	Financial condition very good.
Steam railroad . . .	Machinist helper . . .	43	37 00	4,000 00	Widow and three children . . .	\$1,500 and funeral expenses.	Attorney refuses settlement. Wants larger sum. Widow takes in washing. Cannot locate dependents.
Steam railroad . . .	Laborer . . .	50	19 20	4,000 00	Widow and one child . . .	-	Widow in straitened circumstances.
Steam railroad . . .	Brakeman . . .	25	35 00	4,000 00	Widow . . .	Suit pending for \$100,000.	Widow in good circumstances.
Steam railroad . . .	Sectionman . . .	64	23 88	4,000 00	Widow . . .	\$767.66 . . .	Widow in good circumstances.
Steam railroad . . .	Engineer . . .	35	42 00	100 00	None . . .	-	Single man, no dependents.
Cotton mill . . .	Dumper . . .	61	29 60	4,000 00	Widow . . .	-	Settlement made, satisfactory to widow.
Steam railroad . . .	Brakeman . . .	56	40 00	4,000 00	Widow . . .	-	Cannot locate dependents.
Steam railroad . . .	Fireman . . .	28	42 00	4,000 00	Widow and three children . . .	\$13,000 . . .	Family in good circumstances.

TABLE XII. — Study showing Condition of Dependents in Uninsured Fatal Cases, etc. — Continued.

Industries.	Occupation.	Age.	Wages.	Amount payable in Analogous Cases.	Dependents.	Settlement.	Financial Condition.
Gunpowder manufacturers	Laborer . . .	28	\$24 00	\$100 00	None . . .	-	Single man, no dependents.
Steam railroad . . .	Flagman . . .	29	56 32	4,000 00	Widow . . .	\$1,000 . . .	Widow working in cotton mill.
Steam railroad . . .	Brakeman . . .	26	38 88	100 00	None . . .	-	Single man, no dependents.
Steam railroad . . .	Brakeman . . .	22	35 00	2,000 00	Parents . . .	\$450 . . .	Parents were partially dependent upon employee. Now depending on brother.
Street railway . . .	Conductor . . .	62	45 00	4,000 00	Widow and two children.	Suit for \$42,000 pending	Family had \$300 in savings bank.
Steam railroad . . .	Laborer . . .	52	25 44	4,000 00	Widow . . .	\$500 . . .	Widow being supported by children.
Steam railroad . . .	Brakeman . . .	35	58 40	4,000 00	Widow . . .	\$2,500 . . .	Widow in fair circumstances.
Steam railroad . . .	Crossing tender . . .	54	22 75	4,000 00	Widow . . .	None . . .	Widow will not sue. In comfortable circumstances.
Steam railroad . . .	Crossing tender . . .	50	26 00	4,000 00	Widow and six children.	\$500 . . .	Family received funds from public.
Manufacturers of textile machinery.	Laborer . . .	25	31 37	4,000 00	Widow . . .	-	Widow in Poland.
Farmer . . .	Laborer . . .	52	8 50	100 00	None . . .	-	Single man, no dependents.
Steam railroad . . .	Trainman . . .	25	35 00	100 00	None . . .	-	Single man, no dependents.
Steam railroad . . .	Inspector . . .	55	41 00	4,000 00	Widow . . .	Suit pending . . .	Widow being supported by children.
Steam railroad . . .	Electrician's helper . . .	19	30 87	100 00	None . . .	-	Single man, no dependents.
Steam railroad . . .	Laborer . . .	35	23 28	4,000 00	Widow and three children.	Offered \$2,500. Refuses same.	Cannot locate dependents.
Steam railroad . . .	Fireman . . .	39	46 85	4,000 00	Widow and two children.	-	Family obliged to take aid from city.

Steam railroad	Engineer	44	45 00	4,000 00	Widow and three children.	-	Widow is suing railroad, but refuses any detailed information. No dependents.
Steam railroad	Coal shoveler	60	30 96	100 00	None	-	
Steam railroad	Fireman	28	44 91	4,000 00	Widow and two children.	None	Widow working. Will make no settlement. Good circumstances.
Steam railroad	Engineer	72	58 04	4,000 00	Widow	\$1,200	Widow is seventy-one years of age. In poor circumstances.
Steam railroad	Conductor	50	43 00	4,000 00	Widow and three children.	\$3,250	Widow now working as teacher. Children attending schools. Circumstances fair.
Steam railroad	Brakeman	30	30 00	4,000 00	Widow and two children.	Offered \$1,000	The present financial condition is very limited.
Steam railroad	Conductor	57	50 00	4,000 00	Widow	-	Widow refuses to give any information.
Steam railroad	Foreman	25	28 80	100 00	None	None	Single man, no dependents.
